QSC is THX Approved

QSC Audio Products has become internationally known as the number one power amplifier manufacturer for theatre and cinema.

In QSC's continuing commitment to achieve the highest possible standards, we proudly announce the following QSC products have received THX approval by the THX Sound System Division of Lucasfilm Ltd. This list represents the broadest range of THX certified amplifiers offered by any one manufacturer.

DCA SERIES

DCA Series Power Amplifiers

DCA amplifiers take your soundtracks to a whole new level. With PowerWave technology, they provide a vast dynamic range that can handle the most demanding digital soundtracks without running out of headroom.

They are also extremely compact, delivering up to 1500 watts per channel in two-rack-space, 21-pound chassis that are only 14" deep. Other QSC exclusive features include separate monitor panel speaker outputs, active AC inrush limiting, and a DataPort interface for QSC's DCM Digital Cinema Monitor.

THX APPROVED: DCA 1222 DCA 1622 DCA1644 DCA 2422 DCA 3022

MXA SERIES

MXa Series Power Amplifiers

Low profile professional power amplifiers, the cost-effective MX Series combines high performance, sophisticated operation, and reliability.

THX APPROVED: MX 700 MX 1500a MX 2000a MX 3000a

SERIES ONE

Series One Power Amplifiers

QSC's legendary industry standard, the Series One is featured in the finest cinemas worldwide.

THX APPROVED: Model 1400

USA SERIES

USA Series Power Amplifiers

Representing increased value for the professional amplifier user, the USA Series is powerful, uncomplicated, rugged, and made in America.

THX APPROVED: USA 900 USA 1310
